Page related to an icon:*	Page 2
Icon from library:*	Pick an icon
Icon label:	

☑ **Add navigation features to the form**

Release Notification

Changes Summary:

5. Pre-population of fields

Forms and fields can be linked to pre-populate fields. For example, user details captured in a form can be carried forward into subsequent related forms to prevent duplication of entry, with options to edit.

Bugs

Multifactor authentication (MFA) is now being correctly applied to organisation users where MFA is set as being optional at an organisation level.
