# COVID-19 PROVIDER DASHBOARD

The COVID-19 Provider dashboard, allows LAs and CCGs to monitor the status of local providers of domiciliary care, supported living, extra care services, and others. Using a simple Red Amber Green (RAG) status, LAs can quickly identify those providers who are struggling

Benefits:

- Easily pin-point providers who may need assistance, so the LA can provide targeted support

- Significant time savings, by avoiding the need for your teams to telephone providers on a daily basis

- Quick and easy to use - encouraging uptake and engagement by providers and staff

Features:

- Provider details are imported from CQC data or any locally-provided LA data

- Providers have a unique link and password to update their directory entry

- Multiple dashboard views, listing providers and their current status for:
  - Supported Living / Extra Care
  - Day Care
  - Home Care
  - Housing Related Support

- Filter by RAG status to determine which organisations need support

- Drill into an individual record to find more detailed information

---

Price (excl. VAT): £2,000 for 12 months
(includes 30% discount on G-Cloud pricing)

Time to implement: Less than 1 week
